

Hello, I am asking that the, LPFM stations would not take priority over current FM translator service. I have been in Colorado nearly all my life, and there are not many places that a person can go and get positive and encouraging words to up lift them on a daily basic. KLOVE Radio network, is one of few places that make it possible to go nearly anywhere in Colorado and other states and receive such message, songs and words, that help to uplift peoples spirits, hearts and souls. I understand that I am not the only one that listens to this radio network, and hundreds of thousands of people currently do as well. More people every day are being touched by the Lords words and songs of praise to the Lord(for his great blessings on our country). This country was founded in the trust of God, and few are willing to fight for why this country has been blessed. Fewer understand that with out God, we would be no different then a third world country. One day without Klove radio network on FM translators, is a great gift that one person may miss out on that would have changed his evil thoughts and helped another hear of the good news of Christ. Please don't place LPFM priority over FM translators. This great country can't stand without God and the people that spread good news of Him. Thanks for your time, sincerely Scott.
